

Quarterly Business Review Q4 2025

Prepared by: Operations

Highlights

- On-time roadmap delivery improved from 78% to 91%.
- Uptime reached 99.95%.
- Support ticket backlog dropped by 32%.

KPI Deep Dive

The report tracks performance metrics across search latency and quality.

Team execution met quarterly targets for indexing stability.

Revenue analysis showed sustained revenue growth in enterprise accounts.

Risks

- Model drift for semantic ranking on rare intents.
- Single maintainer risk in extraction subsystem.

Next Steps

- Add targeted tests for edge-case query handling.
- Expand fixture diversity with legal and research documents.
- Review scoring weights with product analytics.
